

TEMPLE BETH AMI RELIGIOUS SCHOOL MEDICATION POLICY

Dear Parents:

NO child will be permitted to carry over-the-counter or prescription medications during religious school. All medications should be taken at home before or after class. The only exceptions will be for "rescue" type medications, example: Asthma inhalers or EpiPen.

If your child needs these medications during school hours, please complete this form and bring it with the medication (in its original container) to the School Administrator on each day the child needs the medication. Unless this information is provided, students will not be permitted to use the medication.

If your child has an on-going problem, please discuss this with the School Administrator so that appropriate arrangements can be made.

Thank you for your cooperation.
